FIRMLY PLANTED STUDY

As moms, we make big and little choices every day that ripple into forever. Under the premise that the work of being a mom is eternal in nature, author Emily Taylor spent two years interviewing women at various stages in their parenting journeys regarding their perspectives on mom life. Themes surfaced. Challenges that seemed nearly universal in nature inspired the study that flowed from these pages.

Written to encourage, equip and inspire moms who hope to stand with feet firmly planted in truth -- despite storms that rush in and winds that blow. With an

introduction and five additional weeks of content, each week offers five days of study as an opportunity to examine a specific challenge to mom life, consider what is true, and write a custom strategy at it's closing. The material is written so that you might work through it on your own, or grab some friends and discuss it each week.

- Week 1: Introduction
- Week 2: Identity
- Week 3: Control / Worry
- Week 4: Nurtured to Nurture
- Week 5: Pace and Purpose
- Week 6: Find Your People

It is true that in this life worthy investments will face challenges, but it is also true that we have been provided all we need to stand with feet firmly planted and grow into the woman God made us to be, and do what He calls us to do.

What People Are Saying

"The study is not intimidating but opens the door for meaningful, life-changing discussion."

What People Are Saying

"I also liked that the study held appeal for moms regardless of the age of her children. My children are all grown, yet each lesson held valuable lessons for me that I could identify with. A lot of the other moms in my discussion group had young children, but we all felt like God spoke to us in each week's lesson."

What People Are Saying

"The study specifically addressed challenges I face on a routine basis. The study was deeply rooted in scripture & truth. I think every mom (or woman for that matter), has something to learn/gain from this study."

What People Are Saying

"This study has 2 big things going for it: 1) The questions provoke thought and probe one's heart, and 2) The amount of time required to complete each lesson is under 30 minutes—so manageable."
